We're here to make you feel seen, beautiful, and deeply remembered.

# MEET THE ARTIST

Hi, I'm Damian — the heart and eye behind the lens of Makame Photography.

Originally from Poland, now based between the magical shores of Zanzibar and Europe, I specialize in capturing love, life, and emotion in natural light. My style is artistic yet effortless — colorful, tropical, and deeply personal.

Photography is more than my work — it's my way of connecting with people. I believe that the most powerful images are created when there's trust, emotion, and freedom to be yourself.

I've had the joy of working with couples, families, expecting mothers, and honeymooners from all over the world — and each story inspires me differently. I'm proud to say my work has been trusted by top hotels on the island, and cherished by clients who often become friends.

I don't just take pictures — I tell your story, capturing the light, the laughter, the love, and the magic in-between. Whether we're on a wild beach in Zanzibar, under the palms with your love, or celebrating a once-in-a-lifetime moment — every session is designed to reflect you.

**This is not just a photoshoot.**

This is an unforgettable experience filled with emotion, fun, and beauty — created with care, passion, and artistic vision.

## *the* TIMING

The best window for a maternity photoshoot typically falls between 28 and 35 weeks. At this point in pregnancy, the baby bump is beautifully defined, highlighting the stunning silhouette of expectant motherhood.

Each pregnancy journey is distinct—some may choose to capture their announcement photos earlier, whereas others might opt for a later session to ensure their bump is more pronounced. This flexibility ensures that the timing of the photoshoot aligns with the unique progression and personal comfort of every expectant mother.

### *We recommend to:*

- Schedule well before your due date to stay comfortable.
- For multiples, aim for 22-26 weeks for the best timing.
- Book early to guarantee your spot and tailor the shoot to your vision.
